

16.61
Prof. J. P. How
Prof. J. Deyst

Handout #9
April 27, 2003
Due: May 1, 2003

16.61 Homework Assignment #9

1. Redo questions #1 and #3 from the midterm exam. Focus on calculating the inertial velocity correctly. Think back to what you did on the exam and explain where you think you went wrong.
2. Do problem 18.124 from Beer and Johnston *Vector Mechanics for Engineers*.
