

Bo E. Madsen, MD MPH

Department of Emergency Medicine
Beth Israel Deaconess Medical Center
Harvard Medical School

Education:

MD from University of Copenhagen, Denmark
Residency in Emergency Medicine at Mayo Clinic, MN
Fellowship in International Health and Emergency
Medicine at BIDMC
MPH from Harvard School of Public Health

My academic interests include:

- LEAN implementation in health care organizations
- Quality improvement and assurance in health care
- Standardization of health care delivery
- Development and measurement of performance indicators in Emergency Medicine
- Development of emergency medicine in countries where the specialty does not exist.

Internationally we are currently studying the impact of implementing Emergency Medicine as a practice model. At BIDMC I'm actively involved in the LEAN efforts in the Emergency Department and have found LEAN to be an incredibly effective tool for waste reduction and process standardization.
