

***Task 1 (20 points): Written report – Knowing the rules***

Electoral legislations and party systems frame political campaigns. For this first task, you will research the political system in place in the country of your choice. For this purpose, you will submit a report on:

- The major political parties and their ideological leanings
- What is the voting system? (i.e. how votes are counted, how ballots are organized and how people vote)
- What are the financial limits for political campaigns? Who is allowed to fund a political campaign?
- Are media ads (billboards, TV spots, campaigning online) and political proselytism regulated? How so?
