

## Assignment 2:

1) Over the next two weeks, take 40 or more images that show "detail". More information as to what that means can be found on the OCW site under "Major Assignment: Detail", and in the Projects page by looking at last year's student work.

Two things I should emphasize: people might be significant details, so trying to photograph them (if you have the courage, or some good friends) might make for some interesting work. And also, if you start to see themes in your work that you'd like to pursue, please do. Feel free to ask me questions about this, or propose things that you'd like to try.

2) When you're done, pick 5-8 of your favorites and email them to me no later than 9am Monday, October 2. Try to resize them again as before (800x600 or so).
