**PROFESSOR:** So for today we're just going to break you guys up into groups.

So Kenneth and Andrea, you guys can work together today for the rest of class.

Paul, Ulea, and David. Since we have an odd numbers, there's going to be a group of three.

And then Nathan and Joshua, you guys can film each other.

And I know that you're going to be a little bit limited with locations today. So if you wanted to film on location, you might not be able to do that for today. But just get comfortable with, like, the movements of the camera, incorporating the stuff Chris talked about earlier. That's what we want you guys to do today.

And break! Go team!
