

Assignment #5b

Revision assignment for Essay 1

- 1) RE-READ all the comments you've received on your Life/Science essay, from classmates & me, and any notes you made based on the workshop.
- 2) RE-READ your essay, with the notes in mind.
- 3) On a clean copy, please ANNOTATE your essay as if you were preparing to revise it: Underline, make marginal notes or inter-line notes. Finally, WRITE 1 paragraph at the end of the essay summarizing what you would do if you were going to revise it—what would change? What would you delete? What would you add?

NOTE: You may handwrite these notes, but make sure your writing is legible!
