

D-Lab

Project: _____

Mentor: _____

Please take a little time to reflect on the role of your mentor. Like the rest of the evaluation, this section will be kept anonymous.

1. Did your mentor provide adequate guidance throughout the design process?
2. What technical expertise did your mentor bring to your team? Was it sufficient? If not, what other skills or knowledge would have been useful for your mentor to have?
3. Did your mentor help you find solutions without imposing their own ideas? Did they alerted team to potential problems?
4. In what ways was your mentor helpful in ensuring that the team worked well together?
5. Were there instances when your mentor was not helpful or hindered your ability to complete your work? Please describe.
6. In what ways could your mentor been more helpful or effective?
7. Was your mentor accessible?
8. Overall, how would you rate your mentor?
