

# Dan Livengood - Rearview Mirror

---

- B.S./M.S. from Washington University in St. Louis
- Major: Systems Science and Engineering
  - Operations Research
  - Control Systems
  - (Non) Linear Dynamic Systems
- Summer research positions
  - WU lab: Modeled AF cargo transportation network
  - Lincoln Labs: Simulated tracking algorithms and analyzed their performance

# Dan Livengood - Looking Ahead

---

- First year Ph.D. student in Engineering Systems Division
- Researcher with Lean Aerospace Initiative
  - Part of the Lean Product Development team
- Modeling and systems architecture
  - Iterative nature
  - Path dependence
- Metrics
  - Measuring -ilities
