Week 6, Assignment #2

CREATING A SPINE

1. Create 7 events that are linked causally.
2. Now write 3-5 clusters. Free write, a la Gertrude Stein. These do not have to relate to the 7 events (at least not consciously). Be playful. Choose interesting, evocative settings.
3. Now insert the clusters into the spine.
4. Read your work out loud to yourself. Revise.
