

Activity 3

Students will work in groups put together by the main facilitator, based on questions they've responded to during the week. These questions range from "What's your dream job?" to "What do you think is the most important problem we have to solve in this world?"

Based on the answers to these questions, as well as some of the homework responses, the main facilitator came up with the following words that seem to fit the students.

Independent

Motivation

Leadership

Originality

Inspiration

Innovation

Creativity

Groundbreaking

Compassion

First the students have to figure out what they all have in common. Next they will come up with some kind of "presentation" for Session 6. It should be no more than ten minutes and everyone has to be involved in speaking or acting roles. These "skits" or "presentations" should have something to do with the word given to each group. These can be anything, poems, songs, experiments, informative things, panels, but they should be entertaining.
