

**17.922 IAP 13**

### **Activity 7: Icebreaker**

Students will break up into pairs and tell the other person what they want to do for the installation or project.

After the icebreaker, everyone has a chance to speak about their ideas for either a project related to the ideals of Dr. King or an installation in Lobby 10.

Two students will write up all the ideas and after class, the main facilitator will post them.
