11.007 Day 23 Notes: **Regulatory Negotiation**

REGULATORY NEGOTIATION

What is the conventional procedure by which an agency makes rules?

What is regulatory negotiation, or negotiated rulemaking?

What are the conditions that are necessary in order to even undertake reg-neg?

What do Weber and Khademian think are the main ingredients of a “successful” reg-neg?

What are the claims made for negotiated rulemaking; what are the rationales for those claims; and what is the evidence in support of each of them (see Coglianese here)?

What, according to Cary Coglianese, are some possible reasons NOT to do reg-neg?
