

Assignment 5 (class), Final Presentation (5%) – Due May 11th

Assignment 5: This session represents a formal and final presentation of the report to the public. Consider and resolve the following in advance. Which members of the design center team, group one, and group two will participate in the final presentation? Where will the presentation take place? Who constitutes “the public?” Will you advertise the meeting or will LCW take the lead on that task? Will you invite key actors in the community like elected officials, non-profit organizations, and community leaders? If so, how will you determine who they are? Who will contact them? Will there be refreshments? Do you need to consider the physical accessibility of the site? Should the meeting be held in the evening? Exactly what aspects of the gathering will you ask LCW to handle?
